

## Head of the Stour – 8<sup>th</sup> March 2026

### Travel Information

#### Arrangements on arrival at CRC

We have been given permission for the trailers for the competing clubs to be placed on Christchurch Quay. Towing vehicles only will be allowed to park here and there will be no charge. Any club choosing to park in a car park will need to pay the required parking fee.

Sopers Lane is closed (again) for electrical work, so to access this area clubs will need to travel along Christchurch High Street towards the Priory Church and cross the mini roundabout here and continue along Church Street towards the Priory. The road turns right as part of the one-way system and clubs must follow the road to the end and stop to access the quay area.

A club member will then allow the club to cross the road and follow the path on to the quay. Drivers will then need to turn right onto the grassed area and park their trailers adjacent to the wall. Boats can only be unloaded at this area and no attempt should be made to drive closer to the river. Please be aware that there may be pedestrians walking in this area and trailers must give way to them.

Parking area marked below with a big red X
